Experience

Associate Engineer - Technology

September 2021 – Present

Verticurl Marketing Pvt Ltd | Coimbatore, India | verticurl.com

- Managed and optimized **end-to-end marketing automation campaigns** for **3 enterprise clients** (Rockwell Automation, Johnson & Johnson, Intel) using **Oracle Eloqua, Salesforce Marketing Cloud and Marketo**.
- Developed **responsive HTML/CSS email templates** from Figma, Photoshop and XD designs, ensuring pixel-perfect rendering across major email clients and devices.
- Implemented **automation solutions** with **UIPath Studio**, reducing manual effort and improving efficiency.
- Utilized **Zoho CRM** for client relationship management, improving data accuracy and engagement.
- Performed comprehensive email testing and quality assurance using **Email on Acid** and **Litmus** to ensure cross-client compatibility, responsive design and optimal rendering.
- Executed **A/B testing** and performance analysis to optimize deliverability, open rates and click-through rates.
- Collaborated with **cross-functional teams** to deliver digital marketing assets, meeting tight deadlines without compromising quality.

UI/UX Designer & Full-Stack Developer

January 2021 – September 2021

MI Softwares | Coimbatore, India | misoftwares.in

- Designed and implemented **user-centric UI/UX solutions** for multiple web applications, ensuring compliance with **WCAG/ARIA accessibility standards** and enhancing usability.
- Developed and maintained **responsive, high-performance front-end interfaces** using **React JS (JavaScript ES6+), HTML5, CSS3**, ensuring cross-browser compatibility and mobile-first design principles, integrated seamlessly with **Laravel** and **Node.js** back-end systems via RESTful APIs.
- Created **custom CMS dashboards** tailored to client workflows, improving content management efficiency.
- Implemented **CI/CD pipelines** with GitHub Actions, reducing deployment time and improving release reliability.
- Designed and prototyped **mobile applications** with User Journey Mapping for Android, iOS and cross-platform frameworks, focusing on intuitive navigation and seamless user experience.

Front-End Developer

March 2019 – December 2020

Cloud Dreams | Coimbatore, India | clouddreams.in

- Developed **100+ responsive websites** and HTML email templates using **HTML5, CSS3, JavaScript, SCSS**, ensuring full cross-browser and cross-client compatibility.
- Translated **Photoshop, XD and Figma** designs into pixel-perfect, production-ready code with high attention to detail.
- Built scalable **Angular** applications for **e-commerce**, with reusable components and API integrations.
- Implemented secure **payment gateways** and shopping cart features in **Angular** stores, boosting checkout efficiency.
- Created advanced animations and interactive UI elements using **GSAP** and **ScrollMagic**, enhancing user engagement.
- Customized **WordPress websites**, managing content updates, theme modifications, and plugin integrations.
- Optimized assets and code to achieve **90%+ Google PageSpeed scores**, reducing load times to **under 2 seconds**.
- Applied **SEO best practices** to front-end builds, boosting organic search rankings and visibility for client websites.

Experience(On-the-job Training)

Web Design and Development

December 2018 – March 2019

Infoem Solutions | Namakkal, India | infoemsolutions.com

- Assisted in the development of Client websites and basic HTML templates using **HTML5, CSS3 and JavaScript**.
- Supported backend development with **PHP** and **MySQL**, handling data storage and basic server-side functionality.
- Gained hands-on experience with **responsive design** techniques and cross-browser compatibility testing.
- Worked with **WordPress** and **Bootstrap** to create functional, mobile-friendly layouts.
- Collaborated with senior developers to troubleshoot and debug code, improving site performance and stability.
- Participated in **UI/UX design discussions**, contributing ideas for improving usability and accessibility.

Projects

Online Portfolio: <https://naveens-dan.github.io/Portfolio/>

- Developed a personal portfolio website entirely with **vanilla JavaScript** and **custom CSS**, showcasing interactive UI elements such as a custom cursor, 3D rotating cube and particle animations to enhance visual engagement.
- Implemented a **Dark/Light theme toggle** with **localStorage persistence** to remember user preferences and built a **custom search feature** with real-time filtering for improved navigation.
- Achieved a **100% Google PageSpeed score** on both mobile and desktop by optimizing assets, minimizing code and leveraging browser caching.
- Designed with a **mobile-first, responsive layout** ensuring consistent UI across devices and screen sizes.
- Applied **WCAG accessibility standards** and semantic HTML for inclusive design and better SEO performance.
